why ibelsa?

more time for the essentials

With ibelsa, work steps can be optimised and shortened, making work easier and helping to attract new guests. This gives you more time to focus on what matters most: your guests.

competent support always on hand to help

We do not simply sell a product. We consider ourselves as a service provider and our hotel software as a service. At ibelsa, there are no trouble tickets or automated responses. We offer real help from a team that is not only technically competent, but also works hard and solution-orientated on every issue with passion.

Flexible and customised to you and your hotel

Convinced that we can find the perfect solution for every hotelier and therefore for every hotel, guesthouse, holiday flat, hostel, campsite or inn, we are constantly optimising our cloud-based software and regularly expanding our range of connections to third-party systems.

digitised into the future

Hello remote hotel! Keep an eye on your hotel at all times - even from your smartphone with ibelsa.mobile - so it doesn't matter where you are.

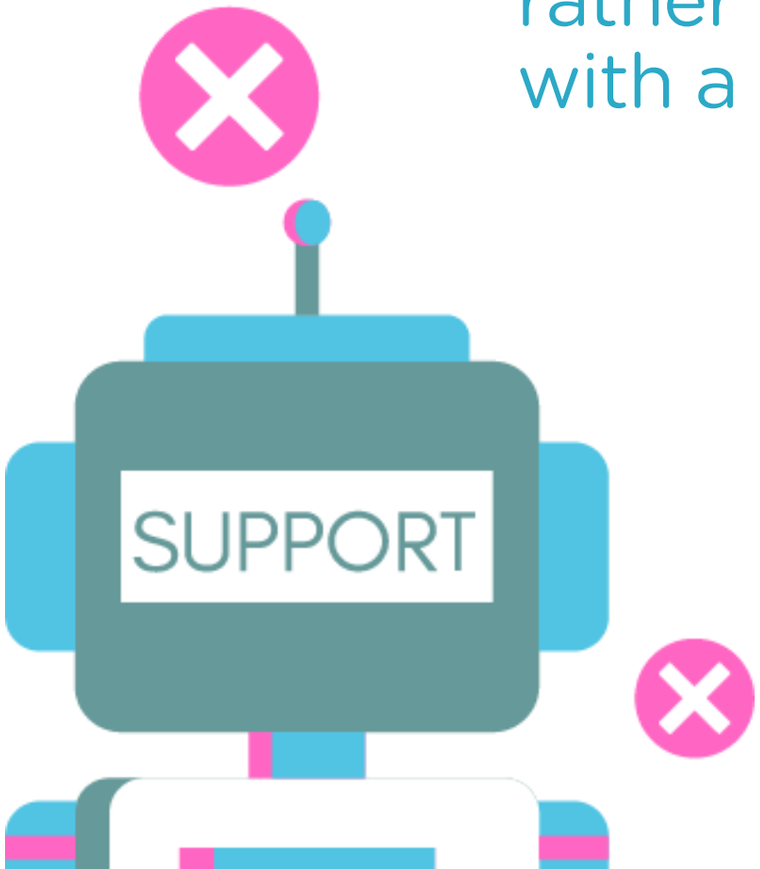
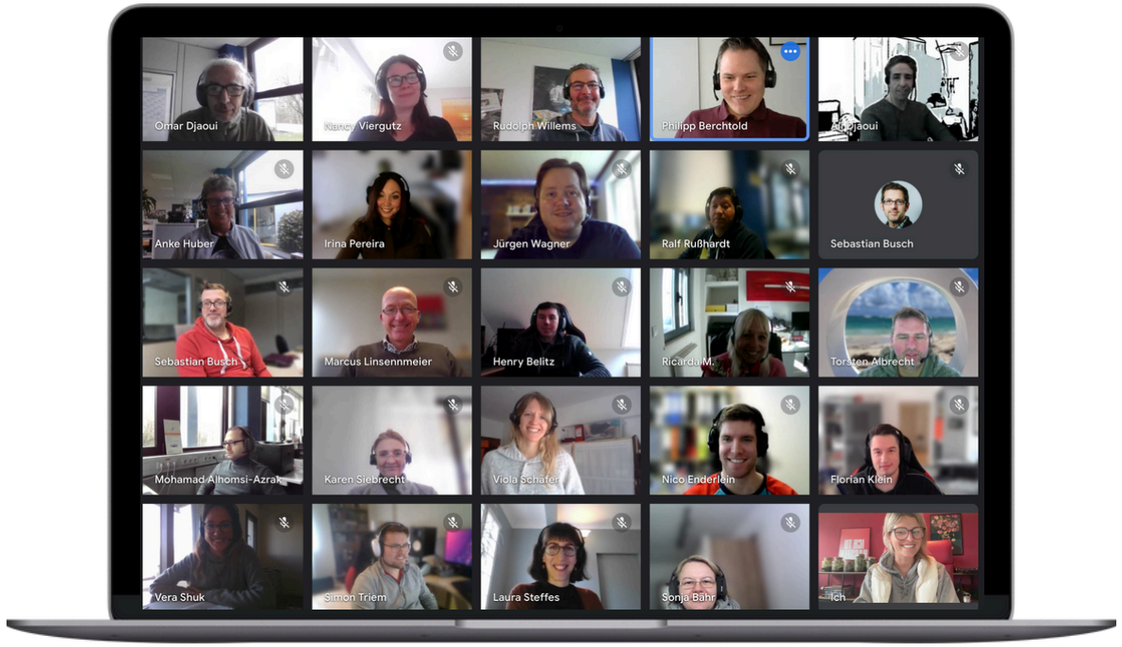
support is our sport

At ibelsa, we value our high-calibre support. If something doesn't work, we are there to help personally. No annoying trouble tickets, no hotlines, no run-of-the-mill response. We lend an ear.

better to have experts help on the same day rather than bots with a delay.





as if we could just wave off a request.

We are ibelsa,
hotel software and the centerpiece of your digital hotel. We are flexible, fast, and modular. Better unbound than restricted and prefer a small flat rate over monthly headaches. Our philosophy: More time for the essentials: you and your guests. More information via the QR code.
